

Pediatric Specialty Clinic in Johnson Creek

UW's American Family Children's Hospital (AFCH) physicians and surgeons provide a wide range of pediatric services. Specialists from AFCH in Madison regularly travel to see patients locally. This allows children who need specialty care to be seen for diagnosis, regular check-ups and some treatments close to home. In this way, AFCH physicians and surgeons supplement and support the care provided by physicians within the local community.

Location

UW Health Partners, Johnson Creek Clinic
540J Village Walk Lane
Johnson Creek, WI 53038

Services

- **Pediatric Allergy***
- **Pediatric Cardiology**

Pediatric Cardiology

J. Carter Ralphe, MD

Dr. Ralphe is the chief of UW Pediatric Cardiology and director of the Ralphe Research Lab. He is board certified in pediatrics and pediatric cardiology. He earned his medical degree at State University of New York. He completed his residency and fellowship at University of Iowa Hospital and Clinics. His research interests include understanding the impact of metabolism and energy production on cardiac contractile performance in the immature heart as well as how the transitioning perinatal heart responds energetically to the stress of congenital heart disease or other contractile abnormalities.

Al Wilson, MD

Dr. Wilson is board certified in pediatric cardiology and pediatrics. He received his medical degree from the University of Illinois-Chicago and completed pediatric residency at Riley Children's Hospital/Indiana University. He completed pediatric cardiology fellowship training at Children's Memorial Hospital/Chicago and Children's Medical Center/Cincinnati. Special interests include fetal and neonatal echocardiography and Kawasaki's disease.

Pediatric ENT

Tony Kille, MD

Dr. Kille is board certified in otolaryngology. He received his medical degree at University of Wisconsin School of Medicine and Public Health in Madison. He completed his residency and internship at UW Hospital and Clinics, Madison. He then completed a fellowship in pediatric otolaryngology at Texas Children's Hospital in Houston. He specializes in pediatric otolaryngology, including management of pediatric sinus disease, airway and swallowing disorders, pediatric ear disease and hearing loss. His research interests include pediatric sinus disease and airway reconstruction.

Pediatric Neurology

David Hsu, MD PhD

Dr. Hsu is board certified in neurology and child neurology. He earned his medical degree from the University of Pittsburgh and completed his residency in neurology at Stanford Hospital and Clinics in California and his pediatric neurology residency at the University of Iowa Hospital and Clinics. His clinical and teaching interests include general neurology and developmental delay in infants.

Pediatric Orthopedics

Blaise Nemeth MD

Dr. Nemeth is board certified in pediatrics and is one of only a few non-operative pediatric orthopedists in the nation. He earned his medical degree from Washington University School of Medicine. He completed his fellowship and residency at UW Hospital and Clinics. Dr. Nemeth evaluates, diagnoses, and manages all pediatric musculoskeletal conditions, facilitating surgical treatment when necessary. His primary areas of clinical and research expertise include clubfoot, gait abnormalities, pediatric fitness and obesity treatment and prevention.

Pediatric Pulmonology

DB Sanders, MD

Dr. Sanders is board certified in pediatrics. He earned his medical degree at Northwestern University. He completed his fellowship at Seattle Children's Hospital and his residency at Children's Memorial Hospital, Chicago, IL. His interests include the treatment of asthma, cystic fibrosis, chronic cough, chronic lung diseases, neuromuscular disorders and vocal cord dysfunction.
